Discovering Spanish Language and Culture

A Journey into Spain's Rich Heritage

Our Weekend Spanish Classes for Kids offer a unique opportunity for your child to develop their social and emotional skills while learning the Spanish Language. Through group activities and games, children will build confidence and creativity and they will learn to work and play together in a supportive environment.

Our teachers will provide personalized attention each child, encouraging their curiosity and fostering their love for the Spanish language and culture. Children will develop their listening, speaking, reading and writing skills while having fun and making new friends.

In our classes we celebrate diversity and we welcome children coming different background and linguistic abilities. We aim to create a community of learners who share a passion for language and culture and who are eager to explore the world around them.

Learning Spanish with Friends

Building Confidence and Creativity

At our weekend Spanish classes for kids, your child will embark on a journey into Italian's rich and fascinating culture. Through songs, stories, and games, they will learn to express themselves in Italian and understand basic grammar and vocabulary.

Our program is designed for children aged 2 to 11 and it includes three hours of content. We adopt an innovative way of education where each lesson has a mix of different activities so the kids can always look forward to something new.

All the lessons are conducted with a communicative approach in mind, to encourage children to speak Spanish in a relaxed and playful environment. Our core concept is simple: let them be immersed in this beautiful language. Listening to Spanish used in the proper way in every scenario is the key of their improvement.

In our program we keep the grammar parts to the bare minimum, covering the fundamentals but always through engaging activities and followed up by the appropriate game.

In Every lesson they'll learn a famous story of the Spanish literature, not just by listening to it but by actively participating in its narration.
